Aftermarket Parts

NOV Mono

One Company, Unlimited Solutions

Mono is a leading name in the design, manufacture and supply of pumps, parts, grinders, screens and packaged solutions, worldwide. We have 8 international sites and a global distribution network, as well as over 75 years' experience in providing a range of products for the multiple application requirements of today's industries.

Mono Parts

When evaluating the purchase of a new pump, we understand the lifetime cost is of the utmost importance. The quality and fit of key components drive the reliability and durability of the pump. Our wealth of pump engineering know-how ensures our products offer optimum effectiveness and a long service life. This engineering know-how also extends into our other product offerings of Munchers, screens and packaged systems.

Mono parts are manufactured utilising superior materials, heat treatment processes and coatings for your particular application. This ensures they are:

- Dimensionally accurate
- Of the correct material specification
- Offer optimum performance for your equipment

We have a dedicated aftermarket team to help you select the correct parts when carrying out routine maintenance and in the event of an unexpected breakdown, parts can be despatched the same day. Recommended parts lists are also available to assist with budgets or stock control.

Quality Assurance

We are in a unique position to closely control the quality and integrity of our parts as we manufacture all the key components of a PC pump in-house. Mono was the first progressing cavity pump manufacturer to be certified to ISO9001 and the first to achieve the Carbon Trust Standard for its UK operations. We are also certified to ISO14001, demonstrating our commitment to improving our environmental performance.

This accreditation ensures Mono continues to improve the way we respond to customer requirements including production, purchasing, staff training and improved processes.

Service and Support

Our team of experienced application and sales engineers have a wealth of industry and product knowledge to assist you in correct product selection, problem solving and aftermarket support.

Mono products are recognised for their outstanding quality and reliability, providing years of trouble-free operation. Our service team can ensure your equipment continues to work efficiently by offering you planned maintenance contracts and repair and refurbishment of your old equipment.

Mono Universal Parts

Mono has a reputation for quality in both equipment and parts. Over recent years it has been our mission to use our extensive manufacturing and engineering expertise to expand our product offering to include a range of high quality Mono Universal Parts.

These parts are engineered and manufactured by Mono and are suitable for many other brands of progressing cavity pumps.

We provide Mono Universal Parts to be used with the following ranges of other brands of progressing cavity pumps. For others not listed, please contact Mono.

Our promise is clear one company, unlimited solutions.
