

ENVIRONMENTAL POLICY STATEMENT

MONO PUMPS LIMITED - Environmental Policy

Mono Pumps is an engineering manufacturer and world wide distributor of progressive cavity pumps and other pump related products.

The organization recognizes its responsibilities for the wider environment and to the local community. It is committed to comply with all relevant environmental legislation at local, regional and national level as a minimum performance, and to continually improve environmental performance through appropriate initiatives, controls, provision of resources and training of employees. The aim is to minimize adverse impacts on the environment of the activities, products and services.

An Environmental Management System has been established that complies with the International Standard ISO 14001: 2004. This integrates environmental understanding and control into other systems and procedures under the direction of the senior management team with the support of all employees, suppliers and contractors. Customers are advised to use and dispose of the organization's products in an environmentally appropriate way.

Management objectives and targets are established and reviewed on a regular basis to implement the Environmental Policy. These are based on a commitment to six environmental principles:

- Prevention of pollution.
- Minimization of energy and material usage and the production of waste.
- Effective and responsible waste management and disposal.
- Promoting reuse and recycling of products.
- Maintaining a high awareness of environmental issues in the workforce.
- Involving suppliers, contractors and customers in environmental initiatives.

The effectiveness of the Environmental Management System is monitored and maintained by regular audit and Management Review.

This Environmental Policy is communicated to all employees and made available to the public on request. The involvement of its workforce and external interested and affected parties in its Environmental Policy is encouraged through effective communication procedures.
